Product Information

Description Details

Here it is, the original Yellow Timberland® boot that helped start it all nearly forty years ago. Admittedly we've made a few improvements over the years, such as the addition of our exclusive anti-fatigue technology for all-day comfort, but our 6-inch boots remain just as sturdy and dependable as ever. They're crafted in premium waterproof leather with seam-sealed construction to keep your feet dry, whatever the elements throw at you. Fitted for this long-lasting durability, our 6-inch premium boots will stand up to a beating in mud, rain, sleet and snow and keep coming back for more. The fit of this Timberland Premium Boot is larger than usual. We recommend you take the nearest size down.
